# Proposal Please

It's already late enough

Brandon Payne . 850226663

13 - August - 2016

```
library("ggplot2")

dsmall <-diamonds[sample(nrow(diamonds),100),]

qplot(carat,price,data=dsmall, colour = color)
```

This is a pretty graph in inline-org mode. It doesn't go into the latex and pdf at this point. That is a super bummer.**ganzenboom1993**.
